

Available Position – Senior Product Engineer

About ProMariner & On Board Solutions LLC: ProMariner/On Board Solutions is a multifaceted manufacturer of battery charging, power inverter, and DC to DC power conversion products to a host of well known OEMs and aftermarket accounts in multiple industries. Our products are found in industrial cleaning machines, golf carts, mobility vehicles, aerial lifts, motive power, small boats and large vessels all around the globe.

As a company, we work with all of our customers to create products that meet the specific needs of the industries we serve. We work closely with our partner accounts as an integrated team member and extend our relationships well beyond that of a simple manufacturer. We have products that meet applications both large and small.

Job Description for Available Slot: As a senior design engineer, this person will work for the Director of Engineering and act as an indirect supervisor to the Product Development Department. This individual shall have a special interest in the design of all types of power conversion products and will work closely with multiple departments to accomplish product development objectives.

Primary areas of responsibility include:

- ▶ Be able to design and study power conversion products (AC/DC, DC/DC, DC/AC...)
- ▶ Analyze product specifications and performance and develop test methods
- ▶ Be able to study and implement current and future trends in product development while also focusing on cost reduction strategies
- ▶ Be able to troubleshoot circuits and perform technical writing as needed
- ▶ Be familiar with and able to use computer applications typically associated with this type of position
- ▶ Work with product test reports and focus on product improvement strategies and methods

Education/Work Experience:

- ▶ Must have a 4 year B.S.E.E. and 4 years related experience or equivalent combination
- ▶ Familiar with AutoCad LT, Microsoft Word, Microsoft Excel

ProMariner/On Board Solutions LLC offers a competitive salary and benefits package to the appropriate candidate.

Please send your resume to careers@pmariner.com.

Thank you for your interest in our company.
